

LOGISTICS MODULE

This module is designed to test a candidate's knowledge in the transport of a variety of goods.

ADR

Designed to assess an individual's knowledge of the safety requirements for the carriage of hazardous chemicals. Candidates are presented with a variety of question styles including true or false statements and multiple choice questions.

DAILY VEHICLE CHECKS

Designed to assess an individual's knowledge of regulations, lawful practice and safe procedures involved in daily vehicle checks. Candidates are presented with a variety of question styles including true or false statements and multiple choice questions.

DRIVER'S HOURS

Designed to assess an individual's knowledge of regulation, lawful practice and safe procedures for meeting EU goods vehicle safe operation requirements. Candidates are presented with a variety of question styles including true or false statements and multiple choice questions.

FORK LIFT TRUCK

Designed to assess an individual's knowledge of the safety requirements for the general operation and loading of a fork lift vehicle. Candidates are presented with a variety of question styles including true or false statements and multiple choice questions.

HIAB LORRY LOADER

Designed to assess an individual's knowledge of the safety requirements for the usage of HIAB lorry mounted loader cranes. Candidates are presented with a variety of question styles including true or false statements and multiple choice questions.

LOAD SAFETY

Designed to assess an individual's knowledge of regulations, lawful practice relating safely securing a load for transportation. Candidates are presented with a variety of question styles including true or false statements and multiple choice questions.

MANUAL TACHOGRAPH

Designed to assess an individual's knowledge of regulations, lawful practice and safe procedures for the use of a manual tachograph for chronicling driver records. Candidates are presented with a variety of question styles including true or false statements and multiple choice questions.

ADR TEST

OVERVIEW

Designed to assess an individual's knowledge of the safety requirements for the carriage of hazardous chemicals. Candidates are presented with a variety of question styles including true or false statements and multiple choice questions.

Candidates are presented with 10 questions to complete in 5 minutes. The candidate's responses are automatically marked and a point is awarded for each correctly answered question. For some questions multiple answers may be required, the sum of these answers will result in one point awarded for the question. Skipped questions or those that are not taken will result in no point being awarded.
